The Future Belongs to Us

It starts with you,
it starts with me,
it starts with us, you see.
The future starts, right here right now,
beginning constantly.
We can be the inspiration.
We can hold the key.
What we do, affects tomorrow.
It's our destiny.

chorus
The future begins with us
and every moment we live lights the way.
Oh yes, the future begins with us.
This is our day.

verse
It all begins so magically
with everyday we see.
The future comes, no matter what.
It happens instantly.
If we have determination, hope, and unity
we can set a good example
with our legacy.

chorus x2
... THIS IS OUR DAY!!!
