To Whom It May Concern:

This letter attests that the Menlo Park City School District has ensured that each student has access to the necessary device, software, and internet required to access the remote learning portion of their education. MPCSD's technology department and the Assistant Principal at each school monitor every child's technology needs and manage families' requests for assistance, replacement technology, or internet.

This letter is written in support of MPCSD's compliance with California's Safe Schools for All guidance. In my capacity as Assistant Superintendent I oversee the district's technology department and affirm that all students have the technology they need and that families are aware of how to request technology and support for using it or replacements when needed.

Sincerely,

Jammie Behrendt
Assistant Superintendent
