Form 470 # 210007294
RFP No. MPCSD2021_1002

REQUEST FOR PROPOSAL
Wireless Network Infrastructure Refresh

Addendum No. 3

Date: 12/30/2020

THIS ADDENDUM IS ISSUED AS A RESPONSE TO THE REQUESTS FOR INFORMATION TO ALL PROSPECTIVE BIDDERS INTERESTED IN THE ABOVE-MENTIONED REQUEST FOR PROPOSAL.

REQUEST FOR INFORMATION:

- Q:** On page 12 of the RFP it is indicated that quotes should include labor for physical install of AP's. Is it acceptable for vendors to provide a "No Bid" for this requested line?
- A:** This is a requirement of the bid, vendors are expected to quote this labor in order to meet the requirements of the bid.
- Q:** *Page 13, bullet: Solutions must support the automatic application of policies to groups of devices/users based on predefined criteria such as device type, user group, RADIUS attribute, etc.* Can you elaborate on the method of assignment of users to user groups?
- A:** The district is looking for a solution that allows us to implement such automatic solution at a later date. When we move to do this we will leverage our onsite MS Active Directory infrastructure for users and devices, and this will more than likely be based on group membership for users and some sort of certificate exchange for devices.
