"N/A" means a number is not applicable or not available due to missing data.

"N/R" means required enrollment data are not reported.

" * " means this API is calculated for a small school, defined as having between 11 and 99 Standardized Testing and Reporting (STAR) test scores included in the API (valid scores). APIs based on small numbers of students are less reliable and therefore should be carefully interpreted. Similar schools ranks are not calculated for small schools.

"A" means the school scored at or above the statewide performance target of 800 in 2003.

"B" means this is an Alternative Schools Accountability Model (ASAM) school, or it is a school district. Schools participating in the ASAM do not currently receive growth, target information, or statewide or similar schools rankings on this report in recognition of their markedly different educational missions and populations served. ASAM schools are covered under the Alternative Accountability system as required by *Education Code* Section 52052 and not the API accountability system. However, API information is needed to comply with the federal No Child Left Behind (NCLB) law. Growth, target and rank information are not applicable to school districts.

"I" means the school has some invalid data, and CDE cannot calculate a valid similar schools rank for this school.

Missing schools - some schools in the county may not appear on this list because APIs were not generated for them. Very small schools (fewer than 11 non-mobile pupils with STAR test scores) and schools that had no STAR test results in 2004 will not receive a 2004 API Base report.
