API Remained Same or Declined, Targets Not Met	1944	27	238	17

* Includes schools with 2002 Growth APIs of 800 or more.

** Includes schools that met schoolwide 2001-2002 API growth targets but did not meet one or more subgroup targets.

This report only includes schools that were listed on the 2001 API (Base) Report. New schools with 2002 STAR test results will appear on the 2002 API (Base) Report.

Middle Schools									
Hillview Middle	100	876	864	A	12	Yes	Yes	Yes	Yes

"N/A" means a number is not applicable or not available due to missing data.

"N/R" means required enrollment data are not reported.

" * " means this API is calculated for a small school, defined as having between 11 and 99 valid STAR test scores. APIs based on small numbers of students are less reliable and therefore should be interpreted with caution.

"A" means the school scored at or above the interim Statewide Performance Target of 800 in 2001.

"B" means the school is not awards eligible due to Adult Testing Irregularities.

Awards Notes - The "Awards Eligible" column requires at least five points schoolwide growth and at least four points growth for each numerically significant subgroup.

Missing schools - some schools in this district may not appear on this list because APIs were not generated for them. Very small schools serving traditional student populations (fewer than 11 pupils with valid STAR test scores), special education schools and centers, and alternative, continuation, community day, court community, and opportunity schools serving high-risk student populations are not in this system. These schools participate in the Alternative Schools Accountability Model (ASAM). In addition, schools that had no STAR test results in 2002 will not receive a 2001-2002 API Growth Report or a 2002 API Base Report.
