In order to meet federal requirements of No Child Left Behind, a 2004 API Growth is posted even if a school or school district had no 2003 API Base or if a school had significant population changes from 2003 to 2004. However, the presentation of growth targets and actual growth would not be appropriate and, therefore, are omitted.

"N/A" means a number is not applicable or not available due to missing data.

" * " means this API is calculated for a small school, defined as having between 11 and 99 valid STAR test scores. The API is asterisked if the school was small in either 2003 or 2004. APIs based on small numbers of students are less reliable and therefore should be interpreted with caution.

"A" means the school scored at or above the Statewide Performance Target of 800 in 2003.

"B" means the school is not awards eligible due to adult testing irregularities.

"C" means the school did not have a valid 2003 API Base and will not have any Growth or target information.

"D" means the school had significant demographic changes and will not have any Growth or target information.

"E" indicates this is an Alternative Schools Accountability Model (ASAM) school or a school district. Growth and target information are not applicable to ASAM schools and school districts.

"F" indicates this school was an Alternative Schools Accountability Model (ASAM) school in the API Base report and has no target information even though the school is no longer an ASAM school.

Targets Met - In the "Met Growth Target" column, the growth target requirement is part of the state accountability system and does not match the Adequate Yearly Progress (AYP) requirements. The AYP requirement for the API is: a 2004 API Growth score of 560, or a one-point increase from 2003 API Base to 2004 API Growth for a school or school district.

Awards Notes - The "Awards Eligible" column requires at least five points schoolwide growth and at least four points growth for each numerically significant subgroup.
